Senior Mobile Engineer – Native & Hybrid | Mobile App Expert | Android & Flutter Specialist | Lucknow, India | +91-8318355491 | swarnimaofficial2810@gmail.com | LinkedIn: www.linkedin.com/in/swarnima-asthana-7b279568

Open to Global Opportunities

PROFESSIONAL SUMMARY

Senior Mobile Application Developer with 8+ years of experience delivering Android and Flutter applications, including 2.9 years of hands-on Flutter expertise. Successfully deployed 20+ production apps with 530,000+ combined downloads, managing complete lifecycle from architecture to Play Store, Indus App Store and App Store release. Strong fintech domain experience including AEPS-based biometric authentication and mATM/POS-enabled financial solutions. Proven ability to build secure transaction systems, integrate multiple payment gateways, and maintain high production stability through proactive crash monitoring and performance optimisation.

TECHNICAL EXPERTISE

Mobile Application Development
Android (Java, Kotlin), Flutter (Dart), State Management (BLoC, Riverpod), MVVM Architecture, Clean Architecture, Cross-Platform Development, Application Lifecycle Management, Legacy Application Modernization, Performance Optimization

Fintech & Payment Systems
Payment Gateway Integration (Razorpay, Cashfree, PayU, CCAvenue, Paytm, UPI), AEPS Transactions, Biometric Authentication (Fingerprint, Retina, Face Verification), mATM/POS Device Integration, Thermal Printer Integration, Financial Transaction Workflows

API & Security
RESTful API Integration, Secure Transaction Processing, Encrypted Communication (HTTPS/SSL), Token-Based Authentication, USB/Bluetooth Device Connectivity, Runtime Permission Management, Error Handling and Retry Mechanisms

PROFESSIONAL EXPERIENCE

Director & Senior Mobile Engineer – Android & Flutter

Speeneed IT Services Pvt Ltd

(Previously Cyber Insource IT Pvt Ltd / PWS Information Technology Pvt Ltd)
Sept 2018 – Present | Lucknow, India

- Delivered 20+ Android and Flutter applications across fintech and service platforms with 530,000+ combined Play Store downloads.
- Led end-to-end mobile application development from architecture to deployment and post-release maintenance across Java, Kotlin, and Flutter.
- Integrated major Indian payment gateways including Razorpay, Cashfree, PayU, CCAvenue, Paytm, and UPI for secure transaction processing.
- Implemented AEPS-based biometric authentication (fingerprint, retina, face verification) with mATM/POS device and thermal printer integration.

- Mentored 5+ associate developers, conducted Android technical interviews and contributed to identifying and hiring high-performing mobile engineering talent.
- Coordinated with payment gateway and SDK teams for device integration, API validation, and production issue resolution.
- Reduced production crashes using Firebase Crashlytics and Play Console monitoring.
- Managed Play Store releases,Indus App Store and App Store submission workflows including TestFlight builds.

Android Developer

Rakuso Insource IT Pvt Ltd

Sept 2017 – Aug 2018 | Lucknow, India
